

Department of Natural Resources
Division of Environmental Quality
Monthly Air Pollution Control Program Summary Report
For All Regions - 1/1/2006 to 1/31/2006

Number of Complaints Received RE:

<i>Asbestos</i>	10
<i>Burning</i>	29
<i>Fugitive Dust</i>	10
<i>Odors</i>	91
<i>Particulate</i>	3
<i>Non-regulated</i>	0
<i>Toxics</i>	0
<i>Other</i>	30

Of the above, 9 complaints involved multiple emissions.

Total of Complaints Received: 162

Number of Investigations of Complaints:

<i>Received during report period.</i>	85
<i>Received prior to report period.</i>	26

Total number of investigations completed: 111

Number of Sources:

<i>Non-Regulated.</i>	0
<i>In compliance with regulations.</i>	149
<i>In violation of regulations.</i>	13
<i>Referred to local air pollution agencies.</i>	0
<i>Referred to other DNR program.</i>	0
<i>Requiring follow-up surveillance.</i>	0

Number of formal notices of violation issued: 13

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	1/4/2006	12/28/2005	HAMILTON METHODIST CHURCH/T	Hamilton	Caldwell	Burning	Anonymous	ANS	
Comments	Ms. Adrienne Smith, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office, informed Mr. Sloan the house would need to be demolished and then all the debris taken to a permitted landfill. The debris cannot be burned or buried. Ms. Smith mailed him a fact sheet on demolitions and open burning.								
Comp. No.	KC10494	Comp. Info	The complainant states a person of the Hamilton Fire Department told him the Hamilton Methodist Church bought a house next door to the church. The church plans to knock it down and burn it or bury it on site. The complainant also stated the house has asbestos siding. The church has not done anything at this time.						
KCRO	1/4/2006	12/30/2005	D. J. KROUSE	Excelsior Springs	Ray	Burning	Lisa Keller	RAV	
Comments	Mr. Richard Vani, an inspector with the KCRO, went to the property and the owner was not there. Mr. Vani saw no evidence of open burning and will write a warning letter.								
Comp. No.	KC10495	Comp. Info	The complainant states her neighbor is doing open burning of trade waste and demolition waste that is hauled onto his property at 705 Cherokee Drive, Excelsior Springs, MO 64024. The reported party is burning rubber, tires, stripped insulation, siding, furniture, mattresses, etc. The burning usually happens twice a week by means of a large bonfire.						
KCRO	1/5/2006	1/5/2006	UNKNOWN	North Kansas City	Clay	Odors	Craig Davis, MGR Harry's Cty C	MRM	A2442
Comments	Mr. Michael Miller, an inspector from the KCRO, noted excessive odor from National Starch. The department will issue NOEE A2442KC. Temporary odor from asphalt roofing KC Cold Storage. The source of localized acetone/solvent odor undetermined, referred to the Kansas City Health Department.								
Comp. No.	KC10506	Comp. Info	The complainant reports an odor from 10:30 a.m. to 1:30 a.m. on January 4, 2006. The complainant believes the odor to be coming from National Starch, affecting business in the City Market area.						
KCRO	1/5/2006	1/3/2006	JUSTIN HILL	Platte City	Platte	Burning	Anonymous	MRM	A1443
Comments	The department issued NOV #A1443KC for the open burning of vegetative material without a permit. The burning of waste materials such as fiber board is prohibited.								
Comp. No.	KC10503	Comp. Info	The complainant states fires have been noted in the evening several times the last few weeks. The fires are adjacent to a one-story yellow building that was a cabinet shop in the past. Approximately one thousand five-gallon containers were noted on the site in the past. There is a new owner of the property. The complainant reports grading equipment had been noted on the site the last several weeks. The complainant is concerned about pollution.						
KCRO	1/5/2006	1/4/2006	BILL COLLINS	Orrick	Ray	Burning/Asbestos	Anonymous	MC	
Comments	Mr. Michael Cunningham, an inspector with the KCRO, informed Mr. Collins that burning was not an acceptable disposal method and demolition waste would need to be disposed of at a landfill. A copy of the open burning regulations and technical bulletins on open burning and managing demolition waste will be mailed to Mr. Collins.								
Comp. No.	KC10496	Comp. Info	The complainant reports that a neighbor plans to demolish their house that contains transite siding and haul it off to be burned instead of properly disposed. The complainant believes the contractor has burned other homes he has demolished. The complainant believes the demolition may start tomorrow.

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	1/10/2006	1/9/2006	MR. STEVE SCHNAKENBERT	Higginsville	Johnson	Burning/Open Dumps	Mr. Kent Smith	MC	A2468
Comments	Mr. Cunningham investigated the disposal of a mobile home by open burning at 294 Southeast Highway PP in Leeton, Missouri. Mr. Cunningham issued Notice of Violation #A2468KC.								
Comp. No.	KC10498	Comp. Info	This is a follow-up to a solid waste complaint investigated on January 6, 2006. The complaint was in reference to an auto salvage operation at Schnakenberg Farms near Warrensburg. The complainant stated the reported party burned a car and tires at the reported party's property. The complainant also stated the reported party also has an open dump of animal pharmaceuticals on the backside of the property past the pond. The reported party also owns property on 180 Road, S & S Auto Salvage, and Route 2 Box 191, a residence. The complainant states the reported party buried several gas pumps at S & S Auto Salvage and also runs a salvage operation at his residence. The reported party allegedly salvages copper often by burning at all three properties and has burned trailers at S & S Auto Salvage.						
KCRO	1/12/2006	1/12/2006	P L RECYCLING	Albany	Gentry	Burning	Anonymous	ANS	
Comments	Ms. Smith observed no open burning violation.								
Comp. No.	KC10505	Comp. Info	The complainant reports a trash pile is being burned that contains plastics and demolition waste.						
KCRO	1/12/2006	1/4/2006	CLINTON CITY HALL	Clinton	Henry	Asbestos	Anonymous	ANS	
Comments	Ms. Smith determined there was adequate removal of the floor tile and no violation.								
Comp. No.	KC10504	Comp. Info	The complainant reports city employees removed the floor tiling in the basement of City Hall and still have some to remove. The complainant reports the tile is asbestos containing materials. The city employees were supposed to wet the tiles down prior to removal, but did not and there was a lot of dust created.						
KCRO	1/24/2006	1/20/2006	OSWALD AGRI SERVICES	Tarkio	Atchison	Burning	Anonymous	ANS	A2430
Comments	Notice of Violation #A2430KC issued for burning trade waste involving plastic containers.								
Comp. No.	KC10499	Comp. Info	The complainant reports Mr. Oswald Agri is open burning chemical and pesticide containers at the facility						
KCRO	1/24/2006	1/19/2006	KURT EVANS	Savannah	Andrew	Burning/Open Dumps	Jody Mayes	MRM	A2444
Comments	Mr. Miller discovered the demolition of former American Legion Building in Savannah without notification to the Air Program. The department issued Notice of Violation #A2444KC.								
Comp. No.	KC10509	Comp. Info	Evan's Bros. General Contracting is demolishing buildings in Savannah, at the old fairgrounds, and hauling waste to a farm in Amazonia, where it is being dumped. Asbestos demolition notification most likely has not been submitted. The waste may contain more than five percent trash, and if it is, it must be taken to a certified landfill.

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	1/25/2006	1/20/2006	HOLD COUNTY BARN	Oregon	Holt	Burning	Anonymous	ANS	
Comments A previous investigation showed no violation.									
Comp. No.	KC10502	Comp. Info	The complainant states the Holt County Barn, Road & Bridge, is burning treated lumber in a wood stove. The complainant states the Holt County Barn is suppose to ship the old wooden bridge planks for recycling or proper disposal. However, they are burning the treated wood instead and creating a smoke that is blue in color. The smoke has a acrid odor that burns the eyes and lungs. The complainant states the time to catch them in the act is on a cold morning at approximately 8:00 a.m.						
KCRO	1/25/2006	1/19/2006	HUNT MIDWEST/MARTIN-MARIETT	Peculiar	Cass	Fugitive Dust	John Bockelman	RAV	
Comments Mr. Vani noted the haul roads were watered and there was no dust leaving the quarry property.									
Comp. No.	KC10500	Comp. Info	The complainant states Hunt Midwest/Martin-Marietta in Peculiar has fugitive dust and fly rock leaving their property and going onto the complainant's property. The complainant reports the trucks are kicking up dust when driving on the haul roads. The problem is particularly bad right now, and will most likely subside if it rains.						
KCRO	1/25/2006	1/20/2006	JAMES RILEY, SR.	Oregon	Holt	Burning/Waste Tire Dump	Anonymous	ANS	
Comments A previous investigation showed no violation.									
Comp. No.	KC10501	Comp. Info	The complainant states Riley's Tire Service is burning treated lumber, bridge planks, in a wood stove at the business. Mr. Riley acquires the wood from the Holt County Barn, county road and bridge maintenance. The complainant indicates the smoke from the treated lumber is blue and has an acrid odor that burns the eyes and lungs. The complainant indicates this problem occurred in the past, some action was taken and the problem stopped for awhile and now it has started again. Mr. Riley also has hundreds of waste tires stacked upon his property, approximately 300.						
KCRO	1/31/2006	1/26/2006	NEIGHBORHOOD ON BELLEMERE	Lake Tapawingo	Jackson	Burning	Anonymous	RAV	
Comments Mr. Vani did not see any evidence of open burning at the time of inspection. Will conduct surveillance of area.									
Comp. No.	KC10508	Comp. Info	A neighborhood is burning household refuse and other items without a permit. Everyone in the neighborhood thinks this is legal in Jackson County. The area is most likely not agriculturally zoned.						
NERO	1/26/2006		NORCO SUBDIVISION	Columbia	Boone	Fugitive Dust	Estil Poff	SMB	
Comments Mr. Steve Boone, an inspector with the Missouri Department of Natural Resources' Northeast Regional Office noted a meeting was held between the complainant, Mr. Estil Poff and Mr. Ted Dyer, Square D Company representatives and staff from NERO. Mr. Poff indicated the dust from soil stockpiled on the Norco Subdivision property resulted in high levels of copper and iron. Mr. Poff indicated he would contact the company and make them aware of requirements to control dust so that it does not leave the property.									
Comp. No.	NE12153	Comp. Info	Complainant reports that dust from a neighboring development is blowing onto Square D Company property, potentially causing high levels of iron and copper in the stormwater runoff from Square D Company's parking lot. The development is located just South of Square D Company property. Dust covered personal vehicles and the parking lot for weeks prior to a sampling event. Then, high levels of iron and copper were found to be in the soil samples taken from soil stockpiled on the neighboring property.

Region	Inspection Date	Suspected Source Received Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	1/12/2006	UNKNOWN	Fayette	Howard	Burning	Denise	DLK	
Comments								
Comp. No.	NE12104	Comp. Info The complainant states heavy smoke filled the house at approximately 5:30 a.m. on January 10, 2006. The smoke was noticed again at approximately 8:00 p.m. on January 11, 2006. The smoke smells like wood, rubber and plastics burning. The complainant believes the smoke is coming from around the DC Rodgers Lake located down the gravel road across from their residence. The complainant states there is a shooting range down this gravel road that could be the source of the smoke but does not know for sure where the smoke is coming from. The complainant is a new resident to this location and hopes the burning does not continue to occur daily.						
NERO	1/23/2006	PSF MILAN PORK PROCESSING F	Milan	Sullivan	Odors	Anonymous	SMB	
Comments								
Comp. No.	NE12125	Comp. Info On January 21, 2006, a report of odors from the PSF Milan Packing Plant was filed as follows. " On Thursday, January 19, 2006, at 12:30 p.m., as I was traveling North on Highway 5 past the bridge and Milan Drinking Water Plant, I detected a nauseating packing plant odor coming from the Milan Packing Plant. It could be detected with the windows shut on my vehicle."						
NERO	1/10/2006	BRICKER CONSTRUCTION AND HA	Hannibal	Marion	Asbestos	Anonymous	MGS	
Comments								
Comp. No.	NE12101	Comp. Info A church is being torn down by Bricker Construction in Hannibal. The building may not have been abated for asbestos prior to demolition. The pictures of the demolition were on TV last night.						
NERO	1/31/2006	WHISTLE STOP GRILL	Centertown	Cole	Other	Anonymous		
Comments								
Comp. No.	NE12154	Comp. Info The boxes and associated trade waste are being hauled to Mr. Brondel's personal residence for burning. A lot of the boxes blow off during transport along Route NN.						
NERO	1/19/2006	MR. PAT GARRETT, VICE PRESIDE	Huntsville	Randolph	Fugitive Dust	Lloyd Kribbs	DLK	
Comments								
Comp. No.	NE12115	Comp. Info The dust from the Norris Aggregates Quarry is just rolling across the Kribbs property. It looks like fog.

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials NOV
NERO	1/26/2006	MODOT DIAMOND GRINDING OPE	Columbia	Boone	Fugitive Dust	Estil Poff	SMB
Comments	A meeting was held with the complainant, Mr. Estil Poff and Mr. Ted Dyer, Square D Company representatives and staff from NERO. Mr. Poff indicates the diamond grinding operation, contracted by Missouri Department of Transportation, took place during the two weeks prior to the sampling event by Square D that resulted in high levels of copper and iron.						
Comp. No.	NE12152	Comp. Info	The complainant reports dust from the Missouri Department of Transportation's diamond grinding operation is blowing onto Square D company property, potentially causing high levels of iron and copper in the stormwater runoff from Square D Company's parking lot.				
NERO	1/9/2006	DON REINKEMEYER	Jefferson City	Cole	Asbestos	Anonymous	SMB
Comments	Mr. Boone contacted Mr. Ron Davenport, with the City of Jefferson, Department of Community Development. Mr. Davenport stated demolition has not yet started. A check with department's asbestos unit showed that no inspection or demolition notification has been received yet on the property. Mr. Boone spoke with the contractor by telephone on December 29, 2005, when he contacted the department's NERO asking for asbestos requirements for demolition of a motel. Mr. Kuster was faxed demolition notification forms. Mr. Kuster informed Mr. Boone he would have an inspection done and provide a notification of the demolition. An on-site visit will be made when in the area next to verify the demolition has not started.						
Comp. No.	NE12149	Comp. Info	A motel located on East McCarty Street in Jefferson City is being demolished. Last night a couple of units of the motel burned suspiciously. The city has been trying to get the buildings demolished as soon as possible.				
NERO	1/24/2006	UNKNOWN	Shelbina	Shelby	Burning	Gene Harland	MIH
Comments							
Comp. No.	NE12133	Comp. Info	Chief Harland reports that on Saturday, January 21, 2006, at approximately 8:00 p.m. the fire department was dispatched to an illegal burn at Highway PP and 36 at Lakin, reference individuals burning coating off wiring. The individuals were told to extinguish fire. Chief Harland noticed, while in the area, on January 24, 2006, all the debris and excess wiring that was not burned had been removed from the property.				
NERO	1/27/2006	UNKNOWN	Ashland	Boone	Other	Paul Jeffery, APCP	
Comments							
Comp. No.	NE12142	Comp. Info	On January 26, 2006, the complainant observed a 100% opacity plume last night going home and this morning on the way to work from what I thought was only a car wash at the C store on the Southwest corner of the Ashland exit off Highway 63. This looks like either a used oil furnace or NG fired heater that is running way too rich. On January 27, 2006, No VE last night or this morning. Both stacks are blacker than the ace of spades. If whatever the source is it is not running, I would suggest, strongly advising, they have someone adjust unit so it runs the way it is supposed to.				
NERO	1/26/2006	DERL BERNARD	Sweet Springs	Saline	Other	Anonymous	DLK
Comments							
Comp. No.	NE12137	Comp. Info	The complainant reports the open burning of shingles at the end of Lexington Street in Sweet Springs. Mr. Derl Bernard is reportedly the owner of the property where the open burning is occurring but does not know who is conducting the open burning.

NERO	1/23/2006	RICHARD AND JOHN BELL	Boonville	Cooper	Asbestos	Anonymous	SMB	
Comments								
Comp. No.	NE12126	Comp. Info Environmental Protection Agency Region VII passed on a citizen tip they received on January 16, 2005. The tip reported the demolition and removal of debris started the day before yesterday. Today an individual that owns dump trucks was approached to haul debris from the site. He told me the debris he was asked to remove contained asbestos material and he refused to haul the debris then. I do not know if the removal of debris will continue tomorrow morning. Three houses on Ashley Road have been stripped of siding and may be slated for demolition. There may be a problem with the insulation containing asbestos.						
NERO	1/30/2006	THOMAS MOTORS	Louisiana	Pike	Other	Anonymous		
Comments								
Comp. No.	NE12146	Comp. Info Thomas Motors in Louisiana is putting out a lot of smoke and a bad odor from a smoke stack at their shop. The complainant never has observed any wood being brought to the shop and is concerned about what is being burned. The complainant states that he only notices the smoke when it is cold outside, but that it has been ongoing for several years and he is getting tired of it. The complainant says that they are burning something today.						
NERO	1/24/2006	UNKNOWN	Marceline	Linn	Other	Donald Sinclair		
Comments								
Comp. No.	NE12131	Comp. Info The Green Hills Planning Commission is tearing down homes in Marceline and the complainant is worried about asbestos in the home being torn down behind his house. Reportedly the transite siding has been removed along with some but not all of the roll type insulation that was under the transite siding. Some of the remaining insulation has blown off of the house and off of the property. The complainant is concerned why some of the insulation was removed and not all of it. The complainant is also worried the insulation may contain asbestos too and the commission and the City of Marceline are not telling him the truth about the asbestos test results for the insulation. The majority of the insulation was picked up and the complainant was informed someone would be back to clean up the rest soon. The complainant did not observe the removal company break any of the transite siding.

NERO	1/27/2006	LLOYD JONES SALVAGE		Hannibal	Ralls	Other	Anonymous	MIH	
Comments	Ms. Hopke met with Mr. Jones on February 2, 2006, while he was at the regional office applying for a stormwater permit. Mr. Jones stated that a neighbor contacted him at his home on January 25, 2006, and told him they could see dark black smoke coming from his salvage yard. Mr. Jones stated he went to the salvage yard and found a vehicle burning. Mr. Jones contacted the Hannibal Rural Fire Department immediately to put out the fire. Mr. Jones stated he noticed the windows had been broken out of the vehicle and set on fire by unknown persons. Mr. Jones noticed a total of 10 windows broken on various vehicles. Mr. Jones reported the vandalism to the Ralls County Sheriff's Department. When the Ralls County Deputy arrived he told Mr. Jones the property was in Marion County. The Deputy called Marion County to report the vandalism and was told by Marion County Sheriff's Department the property was in Ralls County. The Ralls County Deputy told Mr. Jones he would look into the matter and further and contact him at a later date. Mr. Jones stated the Ralls County Sheriff's Department has not since contacted him regarding the vandalism. (Continued on the back of the form). Mr. Jones stated Mr. Jimmy Watkins was caught stealing at the salvage yard by the Ralls County Sheriff's Department in May of 2005. Mr. Watkins lives across Silvers Lane from the salvage yard. Ms. Hopke contacted the Ralls County Sheriff's Department on February 2, 2006, to confirm Mr. Jones' story. Deputy Paul Forney informed Ms. Hopke he was aware the Jones Salvage Yard was in Ralls County and would find out who the responding deputy was on January 25, 2006. Deputy Forney told me he would obtain the information and find out if a vandalism report was filed on Mr. Jones' behalf. Ms. Hopke contacted the Hannibal Rural Fire Department and left a message for Fire Chief Mike Dobson to contact her at NERO so information regarding the fire could be obtained.								
Comp. No.	NE12163	Comp. Info	Sheriff Berghager reported a fire called in by unknown parties on January 25, 2006, stating there was heavy black smoke coming from the Lloyd Jones Salvage property located off Silvers Lane South of Hannibal. Sheriff Berghager did not have information regarding the fire but suggested the Hannibal Rural Fire Department be contacted to obtain information from their response.						
NERO	1/3/2006	1/3/2006	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE12087	Comp. Info	On January 2, 2006, the complainant reported odors from PSF Whitetail. "December 31, 2005, Fred and Leta Torrey stated the odor was a strong hog manure odor. January 1, 2006, Fred and Leta stated the odor was present the entire day. The odor was horrible like a strong hog manure smell."						
NERO	1/4/2006	1/3/2006	JEFFERSON CITY LANDFILL AUTH	Jefferson City	Cole	Odors	Leroy Stockman	SMB	
Comments	Mr. Boone conducted an on-site investigation and found no odors directly downwind from the landfill. Mr. Boone contacted Mr. Curt Robertson, the Operations Manager for the landfill. Mr. Robertson stated the flare was not burning the morning the complaint was noted, and that the flare had been immediately restarted. The equipment automatically shuts off the methane flow when the flare goes out so it should not have been a source of odors. On January 5, 2006, Mr. Boone spoke with Ms. Stockman who stated the flare goes out frequently and she is concerned about the levels of methane in the air from the landfill. Mr. Boone informed Ms. Stockman he would check for more details about the reporting that occurs when the flare goes out and invited her to contact the department again if the odors are strong. On January 6, 2006, Mr. Boone spoke with Mr. Craig Abbot, with Midwest Method Landfill. The flare has a thermocouple with an automatic shut off that shuts down at 150 degrees Fahrenheit. This failsafe valve shuts down any time the temperature dips below 150 degrees and cannot be restarted within three tries. The requirement of their NSPS permit states they must report all times the flare is down more than one hour at a time. This report is sent to Mr. Bob Randolph. Mr. Abbot will email a copy of their most recent report for our files. On January 6, 2006, the department received the report from Mr. Abbot. No violation of the odor regulation at the time of the investigation. The facility is following the NSPS requirements of their Air Pollution permit.								
Comp. No.	NE12083	Comp. Info	The complainant reports very strong noxious odors coming from the Jefferson City Sanitary Landfill. The complainant noted the methane burner at the landfill had gone out.

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	1/4/2006	1/4/2006	PSF WHTIETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE12173	Comp. Info	On January 3, 2006, the complainant filed two reports of odors from PSF Whitetail. "On January 2, 2006, Leta Torrey stated the odor was here for part of the day and it was a hog manure odor. On January 3, 2006, Melody Torrey stated the odor moved in at approximately 5:30 p.m., and the odor was a hog manure smell."						
NERO	1/5/2006	1/4/2006	UNKNOWN	Louisiana	Pike	Particulate	Dorothy Penrod	DLK	
Comments	Mr. Kinkhorst investigated and found red dust on vehicles and on permanent structures at the complainant's residence. The dust appears to have been distributed during a weather event. Mr. Kinkhorst took samples from the complainant's residence for lab analysis and to be sent to Envirohealth Technologies for total particulate analysis. The analysis came back 1-5% Cellulose, less than 1% hair, 90-95% Light Brown Amorphous Non-Fibrous Particulate. The wind direction at the time of the alleged deposition and the lab analysis rules out any industrial sources. Discussions with the Air Pollution Control Program suggests the source may be natural.								
Comp. No.	NE12090	Comp. Info	The complainant reported a creamy rusty tinted residue all over her vehicle at 6:30 a.m. this morning. The complainant spoke to another gentleman today that lives six miles west of her that had the same residue on his vehicle this morning also. The complainant stated her husband was up at 2:30 a.m. and noticed a mist in the air. The complainant has concerns of where the residue originated and what the residue may be and if it came from either of the two large plants located near her home.						
NERO	1/6/2006	1/6/2006	MARK PUEKERT	Bevier	Macon	Burning	Audrey Smith	DLK	0964N
Comments	Mr. Kinkhorst investigated and discovered Mr. Peukert open burning disposable razors, hair coloring, oral pain medication, topical creams, eyewash, cold medicine, and food bars resulting from his distribution business. Mr. Peukert is employed by Millbrook Distribution Services, P.O. Box 790, 401 Highway 43 East and Cottonwood Road, Harrison, Arkansas 72602-0790. A Notice of violation was issued to Mr. Peukert for violation of Missouri Air Conservation Commission Regulation 10 CSR 10-3.030(3), Open Burning Restrictions.								
Comp. No.	NE12094	Comp. Info	The complainant stated the reported party works as a distributor for stores in the Macon area. The reported party hauls the display waste home and burns it. The complainant has reported to the Department Natural Resources before but the reported party has gotten away with it because of burning after dark or on weekends. The complainant states the reported party as just set a large pile of waste on fire.						
NERO	1/9/2006	1/9/2006	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE12097	Comp. Info	The complainant filed reports of odors from PSF Whitetail as follows. "January 7, 2006, Fred, Leta, and Melody Torrey stated the odor moved in this evening at approximately 4:30 p.m. and has come and gone all evening. The odor is a strong hog manure odor that drives you quickly into the house. There is no wind. On January 8, 2006, Fred, Leta, and Melody Torrey stated the odor was still horrible early the next morning and was still present in later in the morning. The wind was out of the East, and the odor was a strong hog manure odor."

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	1/11/2006	12/30/2005	BILL BOWEN & CITY OF BROWNING	Browning	Linn	Asbestos	Deputy Butch Eskew	MIH	
Comments	Ms. Hopke contacted Mr. Bowen and asked him if he was going to do a demolition on the building located west of the City Hall and whether or not he was going to use the painted block for clean fill. Mr. Bowen told Ms. Hopke the city had hired him to do the demolition and that he was told by the city an asbestos inspection had been done. Mr. Bowen said the brick from a prior demolition, which is not painted, was going to be used as clean fill. Mr. Bowen said the city also told him the paint on the block building was tested and it was not lead based paint. Ms. Hopke reminded Mr. Bowen the building would need to be inspected for asbestos and a notification for demolition submitted prior to starting the demolition. Ms. Hopke also reminded Mr. Bowen the test results from the paint test on the block building would need to be submitted prior to the blocks being used for clean fill. Mr. Bowen informed Ms. Hopke he was going to meet with the city on January 12, 2006, and would request a copy of the asbestos inspection results and remind the city a notification for demolition would need to be submitted prior to starting the demolition. Mr. Bowen told Ms. Hopke he would also ask for a copy of the paint test that was conducted on the block building. No demolition activities have started on the building and no violations have occurred.								
Comp. No.	NE12062	Comp. Info	Deputy Eskew reported Mr. Bill Bowen is going to demolish a commercial building just west of the City Hall in Browning and does not believe the building has been inspected for asbestos. The city has told Mr. Bowen to haul the painted brick to a creek near the city park for disposal.						
NERO	1/12/2006	1/12/2006	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE12105	Comp. Info	The following reports of odors from PSF Whitetail were filed. "January 10, 2006, the odor was here very early this morning and it was a mix of a chemical and hog manure odor. The odor moved back in this evening and this time the odor was a strong hog manure odor. On January 11, 2006, as I drove by the site this afternoon I encountered strong gassy odors coming off their factory farm. The odors burned my eyes and nose, and made it difficult to breath."						
NERO	1/12/2006	1/4/2005	UNKNOWN	Fulton	Callaway	Burning	Anonymous	MIH	
Comments	Ms. Hopke located the home at 2591 CR 246. The contractors were on site installing new yellow vinyl siding on the older two story home. The contractor told Ms. Hopke he was hired to install the siding and was not sure but believed the owners' name to be Vedder. Ms. Hopke could not locate Mr. Vedder. Ms. Hopke left her business card with the contractor and asked the contractor to have Mr. Vedder contact her. Ms. Hopke did not observe any area around the home that contained evidence of recent open burning. On January 17, 2006, Mr. Vedder contacted Ms. Hopke and stated the contractors, Mr. Gary Nagel, had burned a small amount of untreated lumber for warming on one morning only. The fire was contained in a steel ring in the backyard. Mr. Vedder stated they have not burned since because the weather has been nice. Mr. Vedder informed Ms. Hopke the contractor was loading all other waste and taking it for proper disposal which was part of his contract. Ms. Hopke discussed the open burning restrictions with Mr. Vedder and stated the department would send him technical bulletins on open burning and construction and demolition waste disposal. No violations of the Open Burning Restrictions observed during the investigation. The home is not being demolished, it is being remodeled.								
Comp. No.	NE12088	Comp. Info	The complainant states someone is tearing down a big yellow house at 2591 County Road C, #246 in Callaway County and burning the demolition waste.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	1/18/2006	1/11/2006	RALEIGH PLEXICO	De Witt	Chariton	Burning	Anonymous	DLK	
Comments	Mr. Kinkhorst did not observe any open burning areas at this residence or on the surrounding property. Mr. Kinkhorst asked the locals about Mr. Plexico and was informed Mr. Plexico had died in a tree cutting accident approximately six months ago. No one would answer the door at the residence so Mr. Kinkhorst left a note and a copy of the fact sheet "Facts About Open Burning In Missouri" asking Mrs. Plexico to contact the regional office regarding this investigation. Mrs. Plexico's daughter contacted the regional office and informed Mr. Steve Boone, of this office, that her dad had died and that no open burning was occurring at their residence. No violations at the time of investigation. The alleged responsible party is no longer living. No further action required.								
Comp. No.	NE12103	Comp. Info	The complainant reports that Raleigh Plexico burns all the time. The Mayor and the City has told him it is in violation of local ordinances but he continues to burn. Mr. Plexico is a tree trimmer and brings home and burns the waste from his business.						
NERO	1/19/2006	1/17/2006	DONNIE IVES	Shelbina	Shelby	Burning	Gene Harland	MIH	
Comments	Ms. Hopke went to the Ives property on Elm Street and observed two areas where a fire had recently occurred. It appeared scrap metal and other debris from the demolition of the mobile home park was pushed into a pile and set on fire. Photographs were taken of the area. There is one other area in the trailer park where debris was left from the demolition that has not been burned. There is only one mobile home remaining in the mobile home park. The mobile home park is located North of Highway 36 and East of Highway 15 and sits next to the Highway 36 exit into Shelbina. Ms. Hopke went to the Shelbina Police Department and was told that Officer Bob Donelson was at the site and talked with Mr. Ives at the time of the fire. Officer Donelson contacted the regional office and left a message that he would have a police report completed and sent to the office after 3:00 p.m. on Friday, January 20, 2006. Ms. Hopke will contact Mr. Ives after receiving and reviewing officer Donelson's report. A Notice of Violation was issued to Mr. Ives for violation of the Open Burning Restrictions and the Missouri Solid Waste Management Laws after observations made during investigation and information furnished to the Northeast Regional Office by the Shelbina Police Department and the Shelbina Fire Department. See report for further details.								
Comp. No.	NE12116	Comp. Info	Chief Harland reports Mr. Donnie Ives burned brush, scrap tires, old sections of a metal building and a 300 gallon fuel tank on his property on Monday, January 16, 2006. The Shelbina Police Department went to the Ives property and informed Mr. Ives he could not burn the waste and asked Mr. Ives to extinguish the fire. Mr. Ives failed to extinguish the fire as requested so the Shelbina Police Department dispatched the Shelbina Fire Department to extinguish fire. A heavy plume of black smoke was crossing Highway 36 making it difficult for passing motorist to see. This is in an old trailer park on East Elm Street. Mr. Ives received a grant approximately one year ago. A company came to the property and removed all the mobile homes. Mr. Ives scraped up all the remaining waste on the property and this is the waste that was burned. Chief Harland and the Shelbina Police Department will prepare reports to submit to the Northeast Regional Office.						
NERO	1/19/2006	1/18/2006	KENT ENSOR SWINE FARM	Paris	Monroe	Other	Clayton Armstrong	DLK	
Comments	The Ensor farm is a 4,000 head swine feeding operation and plans to add a 4,400-head capacity swine nursery to this operation in the future. This swine operation is classified as a Class IC Confined Animal Feeding Operation (CAFO). The Department of Natural Resources only has the authority to regulate odors from Class IA CAFO's. In order to be considered a Class IA CAFO a swine operation must consist of at least 17,500 adult finishing hogs weighing 55 pounds or more. No Authority, no further action required								
Comp. No.	NE12113	Comp. Info	A letter was received at the Northeast Regional Office on January 10, 2006, from the complainant expressing concern over a permit application for an expansion at the Kent Ensor Farm. The complainant claimed the current lagoon pollutes the air until they cannot open the windows. The complainant stated the operation has been there for seven years and they are still bothered by the awful smell. The complainant said the owner has failed to control the odor and the operation is a public nuisance.

Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE12128	Comp. Info	On January 22, 2006, the following four reports of odors from PSF Whitetail were filed. "On January 14, 2006, the odor was here at the house the following morning and it was a strong hog manure odor. There was no wind at the time. On January 16, 2006, as I drove by the site going East on Highway 129, I encountered strong odors coming off their factory farm. On January 18, 2006, as I drove by the site going East on Highway 129, I encountered strong gassy/lagoon odors coming off their factory farm the odors made it difficult to breath. On January 19, 2006, as I drove by the site going West on Highway 129, in the afternoon, then again going East later on, I encountered a strong pure hog manure odor coming off their factory farm. The odor made it impossible to breathe as I passed through. The odor was so strong you would have thought it had been dumped up and down the highway."						
NERO	1/26/2006	1/25/2006	ANONYMOUS	Brookfield	Linn	Asbestos	Anonymous	MGS	0967N
Comments	Mr. Merritt showed Mr. Sudholt the material he had removed from the building. It is obvious the material is shredded paper blown-in insulation, most of the pieces have letters printed on them. This building is a brick building used as a drug store and an antique store. Mr. Merritt informed Mr. Sudholt the plaster and lath were removed about three to five years ago. Mr. Merritt was unaware of a requirement to have the building inspected because he is planning to remodel it into a residence. Mr. Sudholt informed Mr. Merritt since it had been a commercial building it required asbestos inspection. Mr. Merritt is hereby issued Notice of Violation #0967 for failure to inspect for asbestos and failure to submit a notification of demolition/renovation before remodeling the structure.								
Comp. No.	NE12135	Comp. Info	The complainant reports someone is ripping out asbestos from a building at 201 South Main in Brookfield without submitting a notification.

Comp. No.	NE12141	Comp. Info	On January 26, 2006, the following two reports of odors from PSF Whitetail were received. "On January 25, 2006, as I drove by the site this morning I encountered strong gassy/lagoon odors coming off their factory farm. On January 26, 2006, as I drove by the site early this morning then again this afternoon I encountered strong gassy/lagoon odors coming off their factory farm. On both occasions the odor made me cough, burned my eyes and nose."						
NERO	1/30/2006	1/24/2006	SUPREME AUTO BODY	Kirksville	Adair	Fugitive Dust	Anonymous	CGR	
Comments	Mr. Greg Robertson, an inspector with NERO, made observations of the operation of the Supreme Body Shop while conducting an IAV for Hazardous Waste. The body shop has a single paint booth with filters on the exhaust fans. Mr. Robertson walked the perimeter of the building and did not notice any paint residue or splatter on the exterior of the building, on the ground, parking lot, or other structures. The exterior of the building is only about ten feet South of the Pizza Hut. The prep area, priming area and frame machine are located in the main area of the building with the paint booth adjacent on the East side of the building. There was some dust and fumes in the interior main area of the building, which is equipped with bay doors for vehicle entry. Mr. Robertson did not observe any significant amount of particulate matter exiting the building and nothing visible was leaving the building during the inspection. No violation of the fugitive dust rule was found during Mr. Robertson's inspection of the property.								
Comp. No.	NE12129	Comp. Info	The complainant is concerned about an auto body shop that expels paint emissions directly into the environment. The auto body shop has an exhaust fan without filters and paint vapors are expelled into the air.

SERO	1/10/2006	12/13/2005	CONNIE GUINARD & MIKE GUINAR	Perryville	Perry	Burning	Brian McCain-Perry Cty Sheriff	GAG	
Comments	The Perry County Sheriff's office sent the department's SERO a copy of their complaint investigation on the burning. This complaint has been referred to the regional office Air Pollution Control Program for the possible issuance of a notice of violation. The SERO's solid waste unit will follow up when next in the area and take action as necessary to get remaining solid wastes cleaned up. Follow up when next in area.								
Comp. No.	SE5989	Comp. Info	The complainant reports the burning of a 14' x 60' trailer as a means of disposal.						
SERO	1/19/2006	1/18/2006	GIPSON LIME	Dexter	Stoddard	Fugitive Dust/Particulate	Maxine Jennings	JC	
Comments	Ms. Chronister noted the wind speed at a constant 20-30 miles per hour with a wind advisory for Stoddard till 5:00 p.m. Ms. Chronister did not see any dust blowing from the facility and noticed the parking and haul roads were adequately wet. The stock piles were also wet. The manager stated they constantly water the stock piles and haul roads. The lime piles are the products they sell and they do not want any of it blowing away. No violation observed on January 19, 2006, at 10:30 a.m.								
Comp. No.	SE6106	Comp. Info	The complainant states the reported party has lime stored as high as a building and it is blowing everywhere. The complainant is concerned the neighborhood is having to breathe the lime and several of them have emphysema. The complainant wants to know why the lime is not covered to minimize the health hazard.

Dates Received or Inspected: 1/1/2006 **through** 1/31/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	1/25/2006	1/24/2006	JERRY LOUGH, ADVANCE SAWMI	Salem	Dent	Other	Charlie Walker	WS	3202S
Comments	Mr. Walter Shull, an inspector with the department's SERO, noted Advance Sawmill, previously conducted business as Advanced Resaw, LLC. name change and ownership change October 2005. See complaint SE5937, same subject, and NOV #3202SE issued December 16, 2005. Mr. Shull coordinated with the Air Pollution Control Program, Compliance/Enforcement Section (APCP), Mr. Brian Newby, concerning this additional open burning complaint since the facility is currently being considered for enforcement action. The APCP contacted Mr. Lough by telephone for verification that burning has continued after receipt of previous NOV #3202SE for violation of Missouri Air Conservation Law and Regulations 10 CSR 10-3.030, Open Burning Restrictions, and the facility ignored the letter from the SERO, dated December 16, 2005, to cease all open burning immediately. Certified Future Forest Products verified by telephone conversation with Mr. Newby on January 26, 2006, the open burning of wood waste has continued. Further action will be at discretion of the APCP. The facility must develop a compliance plan for proper disposal of wood waste and respond back to APCP by February 17, 2006.								
Comp. No.	SE6142	Comp. Info	The complainant states Advanced resaw is still burning. On January 23, 2006, they had a big fire and it is still burning today.

SWRO	1/18/2006	1/12/2006	UNKNOWN	Tuscumbia	Miller	Burning	anonymous	GLE	
Comments Ms. Glennis Evans, an inspector with the department's SWRO, reports the smoldering fire is rice hulls and seed and is the result of a truck wreck. The accident occurred January 3, 2006, involving Ms. Phyllis Rush and Mr. Sam Rush of Rush Farms, Eugene, Missouri. The accident occurred on 62 Jim Henry Road, Eugene, Missouri. The local fire department has been out to extinguish the fire using approximately 3000 gallons of water. The accident is located on a blind curve which makes it very difficult work with. Ms. Rush has brought down a bobcat to use in spreading out the seed so it can burn but the hulls are still smoldering and flaming occasionally. Mr. Larry Teson, of Jefferson City Emergency Environmental Response, was on site. After looking area over Ms. Evans and Mr. Teson recommended the hulls continue to be spread out and watered down. Mrs. Rush agreed to tell her husband and they will continue spreading the hulls and watering them down. The smoldering fire is just past 637 Highway 17 approximately three tenths of a mile on the right hand side of road.									
Comp. No.	SW7984	Comp. Info The complainant reports the open burning of solid waste and it has been smoldering for a week.							
SWRO	1/18/2006	1/17/2006	UNKNOWN	Carthage	Jasper	Odors	anonymous	DWA	
Comments See daily memo. Mr. Allison noted various odors in the area, but no 7:1 detections.									
Comp. No.	SW8008	Comp. Info The complainant reports strong odors like a dead animal being detected near the railroad track on North Main street.							
SWRO	1/18/2006	1/11/2006	MR. HOWSER	Rocky Mount	Miller	Burning	Larry Painter	GLE	
Comments Ms. Evans states there was an accumulation of several years worth of trash from family members. Mr. Jon Howser is the son and Mr. Clarence Hoswer is the owner. Mr. Evans noted a large pile with tires, microwaves, wire, cans, etc, has burned several times in the past. Mr. Evans noted the need to send technical bulletins. The local fire department will continue watching Mr. Howser.									
Comp. No.	SW7979	Comp. Info The Rocky Mount Fire Dept responded to a fire at a rural residential property that involved brush and an estimated 15-20 tires. The fire was extinguished. The fire department reported another 100 tires are present at the site that were not involved in the fire. Mr. Larry Painter, commander for the Rocky Mount Fire Department was the on-scene. Commander Painter can be reached on his cellular telephone at (573) 216-9956 or the fire station at (573) 392-2378.

Dates Received or Inspected: 2/1/2006 **through** 2/15/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	2/6/2006	2/6/2006	PARKER CONSTRUCTION	Braymer	Caldwell	Asbestos	Mr. Derrick Fee	RAV	
Comments	Mr. Richard Vani, with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), reports dismantling residential house trailers is exempt from NESHAP and Missouri Asbestos Regulations.								
Comp. No.	KC10507	Comp. Info	The complainant states the reported party is dismantling house trailers in Braymer, Missouri.						
KCRO	2/9/2006	2/7/2006	UNKNOWN	Creighton	Cass	Asbestos/Other	Anonymous	ANS	
Comments	Ms. Adrienne Smith, an inspector with the department's KCRO, did not observe a violation. She drove through the entire town of Creighton and did not see any evidence of a demolition of any kind of structure.								
Comp. No.	KC10512	Comp. Info	The complainant stated an unknown party is demolishing an old school or an old church and burying the asbestos containing material and other demolition waste across the street from the demolition site.						
KCRO	2/9/2006	1/31/2006	ST. JOSEPH SEWAGE PLANT	St. Joseph	Buchanan	Odors	Anonymous	ANS	
Comments	Ms. Smith did not detect any odor violations.								
Comp. No.	KC10513	Comp. Info	The complainant stated the reported party is not operating correctly. The complainant alleges very strong sewage odors are released into nearby neighborhoods on weekends and occasionally after 6:00 p.m. at night during weekdays. The reported party was previously cited for this and corrected the problem. The complainant stated the problem is happening again.						
KCRO	2/10/2006	2/10/2006	A-1 MOBILE HOME	Hamilton	Caldwell	Asbestos	Anonymous	RAV	
Comments	Mr. Vani reported the residential structure is exempt from the State Asbestos Regulations. Mr. Vani was unable to contact A-1 Mobile.								
Comp. No.	KC10511	Comp. Info	The complainant states the reported party demolished a home with removing the asbestos siding. Currently, the home is now a large pile of rubble in the middle of the lot. The complainant states the reported party allegedly intends to burn the home over the weekend.						
KCRO	2/15/2006	2/14/2006	VINCE ANDERSON	Latour	Johnson	Asbestos	Mr. Les Oberlan	RAV	
Comments	Mr. Vani reported the residential structure is exempt from NESHAP and state asbestos regulations.								
Comp. No.	KC10514	Comp. Info	The complainant stated the reported party is taking asbestos siding off an abandoned house and making it friable. The reported party is also taking some of this siding and putting it on another house.

NERO	2/2/2006	1/27/2006	LLOYD JONES SALVAGE	Hannibal	Ralls	Burning	Anonymous	MIH	
Comments	<p>Ms. Hopke met with Mr. Jones on February 2, 2006, while he was at the regional office applying for a storm water permit. Mr. Jones stated that a neighbor contacted him at home on January 25, 2006, and told him they could see dark black smoke coming from his salvage yard. Mr. Jones stated he went to the salvage yard and found a vehicle burning. Mr. Jones contacted the Hannibal Rural Fire Department immediately to put the fire out. Mr. Jones stated he noticed the windows had been broken out of the vehicle and set on fire by unknown persons. Mr. Jones noticed a total of ten windows broken on various vehicles. Mr. Jones reported the vandalism to the Ralls County Sheriff's Department. When the Ralls County Deputy arrived he told Mr. Jones the property was in Marion County. The Deputy contacted Marion County to report the vandalism and was told by Marion County Sheriff's Department the property was in Ralls County. The Ralls County Deputy told Mr. Jones he would look into the matter further and contact him at a later date. Mr. Jones stated the Ralls County Sheriff's Department has not since contacted him regarding the vandalism. (Continued on back of form). Mr. Jones stated Mr. Jimmy Watkins was caught steeling at the salvage yard by the Ralls County Sheriff's Department in May of 2005. Mr. Watkins lives across Silvers Lane from the salvage yard. Ms. Hopke contacted the Ralls County Sheriff's Department on February 2, 2006, to confirm Mr. Jones' story. Deputy Paul Forney informed Ms. Hopke he was aware the Jones Salvage Yard was in Ralls County but would find out who the responding deputy was on January 25, 2006. Deputy Forney informed Ms. Hopke he would obtain the information and find out if a vandalism report was filed on Mr. Jones' behalf. Ms. Hopke contacted the Hannibal Rural Fire Dept. and left a message for Fire Chief Mike Dobson to contact her at the regional office so information regarding the fire could be obtained. Chief Dobson contacted Ms. Hopke and stated he did believe Mr. Jones and that Mr. Jones was trying to put the fire out when they arrived. Chief Dobson informed Ms. Hopke there were other vehicles that looked nice but had several windows broken out. The fire was set by unknown persons. Information obtained from the Hannibal Rural Fire Department indicated Mr. Jones was not responsible for the fire. Ms. Hopke informed Mr. Jones that he needed to keep fire extinguishers on site for emergencies.</p>								
Comp. No.	NE12163	Comp. Info	<p>Sheriff Berghager reported a fire was called in by unknown parties on January 25, 2006, stating there was heavy black smoke coming from the Lloyd Jones Salvage property located off Silvers Lane south of Hannibal. Sheriff Berghager did not have information regarding the fire but suggested the Hannibal Rural Fire Department be contacted to obtain information from their response.</p>						
NERO	2/6/2006	1/27/2006	UNKNOWN	Ashland	Boone	Other	Paul Jeffery	BJ	
Comments	<p>Mr. John Briney, an inspector with the NERO, met with Ms. Terri Parker, the manager of Fastlane Convenience Store. Ms. Parker stated a boiler broke and had been repaired the previous week. Ms. Parker also stated when the boiler started back up there was black smoke coming out of the stacks. There are two Columbia 1.26 MMBTU boilers at the facility. At the time of investigation Mr. Briney did not observe any visible emissions from the boilers. However, he did notice a black buildup on both stacks. Based on the presence of the black residue on the boiler stacks, Mr. Briney determined there had been problems with the boilers at the facility. The boilers appeared to be functioning properly at the time of Mr. Briney's inspection. It appeared to Mr. Briney the excess emissions were from the repair/startup of the broken boiler.</p>								
Comp. No.	NE12142	Comp. Info	<p>On January 26, 2006, Mr. Paul Jeffery, an employee with the department's Air Pollution Control Program (APCP), reported he observed a 100% opacity plume the previous evening when traveling home and again in the morning on the way to work. Mr. Jeffery believed the plume derived from a car wash at the C Store on the southwest corner of the Ashland exit, off Highway 63. Mr. Jeffery stated the plume looked like either a used oil furnace or a NG fired heater that is running way too rich. On January 27, 2006, Mr. Jeffery did not observe any visible emissions on the evening of January 26, 2006, or the following morning. However, Mr. Jeffery did notice both stacks are "blackier than the ace of spades." Mr. Jeffery stated if the source is isn't running, he would strongly suggest advising the reported party to have someone adjust the unit so it runs the way it is supposed to.</p>

Dates Received or Inspected: 2/1/2006 **through** 2/15/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	2/7/2006	1/24/2006	KENT ENSOR FARMS	Paris	Monroe	Odors	Martha Cullifer	SMB	
Comments	The Kent Ensor hog farm is a Class 1C Confined Animal Feeding Operation (CAFO) and is not subject to the Missouri Air Conservation Commission odor regulations for CAFOs. Mr. Boone sent a letter to the complainant explaining the odor rules and CAFO requirements.								
Comp. No.	NE12186	Comp. Info	The complainant reports the odors of an existing hog facility are horrible. The complainant cannot open her house without having to deal with the odor. Even when the house is closed up, the odor comes in and wakes the complainant up at night. The complainant has health problems that are worsened because of exposure to hog odors.						
NERO	2/8/2006	1/24/2006	UNKNOWN	Marceline	Linn	Asbestos	Donald Sinclair	DLK	
Comments	Mr. Kinkhorst did not observe any of the described waste around the home where the reported party removed transite. Mr. Kinkhorst did not observe any transite siding remaining at the residence where the reported party removed the siding from the structure. No further action required at this time.								
Comp. No.	NE12131	Comp. Info	The complainant stated the Green Hills Planning Commission is tearing down homes in Marceline. The complainant is concerned with the asbestos in the home being torn down behind the complainant's house. Allegedly, the reported party removed the transite siding along with some but not all of the roll type insulation (that was under the transite siding). Some of the remaining insulation has blown off of the house and off of the property. The complainant is concerned with the removal of some of the insulation but not all of it. The complainant stated they are worried the insulation may contain asbestos as well and the commission and the City of Marceline are not telling the truth about the asbestos test results for the insulation. The reported party had the majority of the insulation picked up and informed the complainant soon someone would be back to clean up the rest. The complainant did not observe the removal company break any of the transite siding.						
NERO	2/10/2006	2/10/2006	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE12200	Comp. Info	On February 10, 2006, the following two reports of odors from PSF Whitetail were received. "February 1, 2006, the complainant encountered strong gassy/lagoon odors when she passed by their factory farm. On February 9, 2006, the complainant states that as she drove by their site this morning she encountered very strong gassy/lagoon odors coming from their factory farm. The odors burned my eyes, nose, and made it difficult to breathe. The complainant could still smell the odor several miles away."

NERO	2/14/2006	2/3/2006	MIDWEST PREMIX	Holts Summit	Callaway	Fugitive Dust	APCP Staff	SMB	
Comments Mr. Mike Sudholt, with the NERO stated it may be advisable to arrange to be there at a time when they are not running and have them open up the baghouse and check the condition of the bags. No violation of air pollution control regulations. Mr. Steve Boone, with the NERO, stated the facility was open at the time of the inspection, but were not operating the pre-mix concrete equipment. There was no discharge to the atmosphere. Mr. Boone conducted an air inspection including a review of the records. Mr. Stan Verslues, the Manager, showed Mr. Boone the records as well as the filter cartridges and bags for the bag houses that they keep on hand. Mr. Boone asked Mr. Verslues to check the bags and filters over the next several days and to let him know if the bags and/or cartridges were thin or had holes that might have released emissions to the air. Mr. Verslues told Mr. Boone he would do that. Midwest Premix monitors the baghouses each day they operate and they keep a log of operations and maintenance, which was up to date at the time of the inspection. Mr. Verslues told Mr. Boone that there is a lot of steam from the dryer.									
Comp. No. NE12165 Comp. Info This morning while staff from the Air Pollution Control Program noticed a brownish plume coming from the dryer at Midwest Premix while driving North on Highway 63, located at the Northwest corner of Highway 54 and 63. Some of the plume may be steam since it was a foggy morning and the humidity is still fairly high, 76%. A lot of brown particulate residue is on the roof adjacent to the dryer baghouse exhaust.

Dates Received or Inspected: 2/1/2006 **through** 2/15/2006

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SWRO	2/3/2006	1/25/2006	ALLEN QUARRIES	Stockton	Cedar	Fugitive Dust	Russel Dyer	GLE	
Comments	Ms. Glennis Evans, an inspector with the department's SWRO, states there was no dust leaving the property during the investigation. Dust was visible on the county gravel road between the two Bailey Quarry Sites. The water truck was broke down but Mr. Mark Fields, the site manager, stated they would get the truck fixed that day and begin watering. Ms. Evans spoke with a Mrs. Dyer who stated that dust occurred during blasting and gave permission to go onto their property when we are in the area. Ms. Evans will do site surveillance when in area.								
Comp. No.	SW8047	Comp. Info	The complainant states fugitive dust from the quarry is on the house, cars and etc. The complainant's home is located 300 feet from the quarry.						
SWRO	2/6/2006	2/4/2006	MOARK	Neosho	Newton	Odors	Ruth Beard	DWA	
Comments	Mr. Allison noted odors en route to office and returned with sampling equipment. One 7:1 detection was obtained at 8:55 a.m. A second detection at this location was never obtained and the winds shifted. Mr. Allison detected odors on Highway D at 7:1 but not in a location subject to regulation.								
Comp. No.	SW8118	Comp. Info	The complainant states the odor was bad at MoArk at 10:46 a.m. and again on the afternoon of February 3, 3006.
